10.30-12.00: Leveraging our IE International Offices: Market Insights and Opportunities around the World, Launchpad of Maria de Molina 31.

Did you know that IE hosts more than 5,000 international events every year, beyond our Campus? As an IE alumnus, you can participate in every corner of the world to connect with other alumni, companies, start-ups, partner universities, recruiters and more. We are able to do this because IE University is the only educational institution that has 30 international representative offices with a global approach: we recruit top students from every corner of the world. We work closely with companies and organizations to provide career services for our students and alumni, we lead networking and alumni engagement activities, and we provide life-long learning opportunities on a daily basis through our events and activities.

If you want to meet our International Development team that has travelled all the way to Madrid, register now! They will be sharing in detail all the services and benefits that you can enjoy as an IE alumni in Europe, Spain, North America, Latin America, Asia Pacific, Middle East and Africa. Either if you want to be more in touch with your local IE community, or to connect with our corporate and academic ecosystem within your region, or hear more about career trends at a specific market, join us! We are here to support you on your life journey.

There are limited spots per hour; registration will be done through the GAW App.

- LATAM Roundtable by Newton Campos & Daniela Garcia.
- Europe Roundtable by Ines Holtreman & Joseph Freiha.
- North America Roundtable by Allison Holmes & Liesl Morris.

11.45-12.15: Book Presentation: Business Despite Borders by Santiago Iñiguez, President of IE University, Maria de Molina 31 Bis, MMB-302.

“The best antidote to bad politics is good business”, says Santiago Iñiguez. In this book, Iñiguez argues that globalization has been a key force in the development of business in recent decades. However, with nationalism on the rise in Europe, the United States and elsewhere, the future of global trade and international business has been thrown into doubt. In this new and challenging context, innovative companies have the opportunity not only to find new ways to operate across borders, but also to help forge a new system of relations between people of different nationalities and cultures.

This book features a collection of case studies, compiled by Santiago Iñiguez & Kazuo Ichijo. These illustrate how companies from different corners of the globe are succeeding in reaching out to distant customers, stakeholders and partners. It features inspiring examples of leaders who are actively developing imaginative ways to connect across continents. It is a vital reference tool for companies that plan to continue operating globally or to expand their international presence. A clarion call for the renewed relevance and importance of globalized business, this book suggests a future where companies can contribute positively to achieving sustainable growth and a fairer distribution of wealth across the globe. Registration will be done through the GAW App.
