

AI PROMPT GUIDE ✨

FOR STUDENTS

This guide provides *standardized, high-quality* prompts so students and advisors can use AI effectively to research labor markets by region, while complementing (not replacing) the local intelligence captured by our internal staff. ↘

MARKET OVERVIEW & TRENDS

Act as a labor market analyst specialized in [REGION]. Provide an overview of the current job market for [FUNCTION / INDUSTRY], focusing on hiring trends, growth areas, and declining segments. Assume the user is a graduate student planning to apply within the next 6 months.

ROLE & FUNCTION DEEP-DIVE

You are a career advisor with expertise in [REGION]. Explain the typical responsibilities, required skills, and background expectations for [ROLE] roles in this region. Highlight differences compared to other major global markets.

COMPANY LANDSCAPE MAPPING

Map the key employers in [REGION] hiring for [FUNCTION / ROLE]. Group them into multinational companies, local champions, scale-ups, and startups. Indicate which types are more open to early-career or international talent.

CITY-LEVEL COMPARISON

Compare the job market for [ROLE / FUNCTION] across major cities in [REGION]. Focus on hiring volume, competition level, salary ranges, and openness to international profiles.

SKILLS & PROFILE OPTIMIZATION

Based on current job postings and market expectations in [REGION], what skills, tools, and experiences should a candidate targeting [ROLE] prioritize in the next 3–6 months? Provide actionable recommendations.

RECRUITMENT PROCESS EXPECTATIONS

Describe the typical recruitment process for [ROLE] roles in [REGION], including number of interview rounds, common assessments, timelines, and decision criteria.

VISA & INTERNATIONAL HIRING CONTEXT (HIGH-LEVEL)

Provide a high-level overview of how visa sponsorship typically works for graduate-level roles in [REGION]. Focus on general employer attitudes and common constraints rather than legal advice.

NETWORKING & OUTREACH STRATEGY

Design a realistic networking strategy for a graduate student targeting [ROLE] roles in [REGION]. Include who to contact, where to network, and how outreach should be adapted to local cultural norms.

HOW TO COMBINE AI + LOCAL INTELLIGENCE

- Use **AI prompts** to understand *structure, trends, and expectations*.
- Use the **Local Intelligence Report** to validate reality on the ground.
- When there is a conflict, **prioritize local employer intelligence** over AI-generated insights.
