

Remember: hotels are public places where there are large numbers of people coming and going. Hence, we feel the need to sound a cautionary note with regard to security. We recommend that users with valuable objects or cash declare them when checking in at the hotel and deposit them in the safe boxes available for clients. In case of any kind of incident this will make it easier to make a claim for the value of the objects from the hotel insurance.

Additionally, please note that being at the common areas of the hotel and having with you valuable objects like mobiles, laptops or bags with valuable items do not forget to leave them in custody if you are not going to use them, either at the receptions, wardrobes or personnel, in case of incident you will be able to ask for compensation at the hotel, remember you are in a public space.

Data protection information: We remind you that, to manage the required accommodation reservations, we have the collaboration of all the hotel companies included in this document. As stated in your contract with IE, we will share your personal data with said entities for the indicated purposes. Henceforth, said entities will treat your data as the controllers in accordance with their privacy policies. We recommend you review them in any case.
