

# THE INTERNET OF THINGS (IoT) CHALLENGE

November 15TH 2021

# Are you passionate about tech in general, and the Internet of Things (IoT) in particular?

Join us in this challenge to get a deep understanding about one of the technologies that is revolutionizing the world in the 21st Century!

What is the Internet of Things (IoT)? By signing up to this challenge, you will be able to explore an interactive tutorial that will give you all the insights that explain how the IoT is shaping the 4th industrial revolution. Once you have completed the tutorial, you will know:

- How IoT works,
- What are some of its fields of application,
- What are the benefits and challenges posed by the implementation of the IoT.

Moreover, once you have completed the tutorial you will be able to submit an assignment and compete for an exclusive scholarship to attend IE University!

# Registration details

## 1
