# LANGUAGE PROFICIENCY TRACK

Develop the English skills needed for a successful international career in law

Studying law at IE University means being immersed in an international environment and facing challenges at a global scale. In order to prepare you for the real world and avoid language constraints, our Bachelor of Laws is fully delivered in English. For those who need to improve their English language skills in order to study law in its international language and graduate with an advanced proficiency level, we offer a special track during the first year.

The *Language Proficiency Track (LPT)* is designed for students who wish to quickly adapt to studying fully in English in the LL.B. program at IE University. This track is led by the IE Law School and it is available for first year LL.B. students. It will allow you to access the Bachelor of Laws in English and study with people from over 130 countries while strengthening your language skills. The enrolled students have an early start that begins a few weeks before the academic year, and lasts one academic year.

Students who take part in the *Language Proficiency Track* will be required to enroll in:

### 1. Summer Early Start:

Led by the IE Law School, here you will go through the first unit of the *English Proficiency Course* and *Legal English*, and you will study courses like *Oral* and *Writing Skills*, all in English.

### 2. Continuous support throughout the first year:

In addition to your regular LL.B. subjects, throughout your first year you will have some mandatory courses that are meant to improve your English skills to reach the required level.

### WHO IS IT FOR?

The program is designed for any non-native English speaker who needs to enhance their English skills starting their very first year of study, in order to complete the entire degree in English.

### THINGS TO REMEMBER

1. The *Language Proficiency Track* is mandatory for those candidates who have been admitted to the LL.B. + LPT. This will not only enhance their language skills, but will also help them build their confidence and adjust to the environment.
2. The Summer Early Start cannot be substituted with a summer course abroad or English classes at an academy, since it is part of the LL.B. program and you will learn specific content that is relevant to your law studies.
3. The reinforcement subjects are compulsory and cannot be replaced by other courses.
4. In their second year, all LPT students will study the exact same subjects as the other LL.B. undergraduates.

THIS IS HOW YOUR FIRST LL.B. ACADEMIC YEAR WILL LOOK IF YOU DO THE LPT.

MY STUDENT JOURNEY

“IE University is very much an up-to-date and modern university”

**Hanna Jelezovskaia**  
*Bachelor of Laws*

“After finishing high school in Palma de Mallorca, I decided to stay in Spain because I fell in love with its captivating culture, rich language, vast historical heritage, and incredibly warm-hearted people. I think Spain is unique in how welcoming it is to foreigners—one can easily become integrated into its society and acquire a true sense of belonging.

When it comes to my degree, I decided to study law for many reasons. First of all, I felt that law is the kind of discipline that provides you with a substantial set of theoretical and practical skills that are useful in pursuing a meaningful career in the future. I believed that law is a fascinating tool that will allow me to make a difference in the lives of my future clients. In other words, you could say that it was my internal sense of justice that made it appeal to me. Finally, I wanted to study a complex subject. I enjoy challenging myself and I felt that law is a difficult discipline that would catalyze both my academic and personal growth. In that sense, and in many others, I found what I wanted at IE University.

I would also like to point out that most of the professors actually

practice law themselves, which I believe to be of crucial importance. The professors possess the most up-to-date perspectives on their area of expertise and share their invaluable practical knowledge with us.

“The LL.B. program constantly provides new information about a range of subjects, including philosophy, history, politics, economics and other fields”

In addition to providing high-quality education, IE University is very much an up-to-date and modern university that does everything it can to ensure its alumni find the best jobs after graduating. They put a lot of effort into organizing events, such as job fairs, where students can meet potential recruiters and important contacts. They also provide each student with a mentor, whose aim is to guide us through the journey and help us resolve any problems we face.

I’m also very grateful that IE University is gaining a great reputation both in Spain and internationally. This is very important considering the fact that it’s often difficult for alumni of private institutions to compete with graduates of prestigious traditional universities.”

# PROFESSIONAL CAREERS

*Bachelor of Laws*

### Cuatrecasas

**Best things about it:** we got to start a company from scratch and be present at each step of the process, from the business plan to the corporate image. We knew that in June we were presenting to real investors, which was very motivating!  
**Most challenging aspect:** customer acquisition. Even though we stated how we were planning on reaching out to customers—through paid research, organic research/SEO, PR, social media, inside sales, etc.—we ended up realizing that some of our assumptions were wrong or too expensive, so we had to rethink our customer acquisition protocols.

### Marketing Lab

In the *Marketing Lab*, you will be involved in brand building, strategy creation, and the implementation of marketing plans. You will also work on marketing research and consumer insights for a range of companies and institutions, as well as offer support to new startups and entrepreneurs at IE University.

**Sample project:**  
**PÉREZ-LLORCA**  
**Objective:** analyze a law firm’s website, compare it with the global market and come up with a proposal that will differentiate it from its competitors.  
**Best things about it:** meeting with the client to obtain feedback and adapt our proposals to best meet their requirements and needs. Knowing that they were going to implement our ideas was a huge motivation.  
**Most challenging aspect:** finding the perfect balance between being creative and innovative while also staying loyal to the brand’s image and values.

### IR Lab

This lab is a fully tutored working space where you can execute professional projects with an international dimension for private companies, public organizations, and nonprofits. Our partner institutions work in different industries and sectors: consultancy, international development, public affairs, diplomacy, etc.

**Sample project:**  
**WEBER SHANDWICK**  
**Objective:** analyze the political, social, economic, and legal trends that Weber Shandwick’s multinational clients must be aware of while doing business in different countries, in order to propose an institutional relations and communication strategy.  
**Best things about it:** the opportunity to work in multidisciplinary teams, guided by Weber Shandwick experts, and identify industry insights that allowed us to come up with accurate analyses and proposals.  
**Most challenging aspect:** presenting results and strategy proposals to the clients that were worthy of Weber Shandwick’s reputation and market standards.

### Social Impact Lab

In this lab, you can work with nonprofit organizations and other initiatives to manage social projects in international settings. You will also have the option to travel to developing countries in order to participate in real projects that have a visible, tangible effect.

**Sample project:**  
**FINANCIERS WITHOUT BORDERS NGO**  
**Objective:** develop a microcredit project and a basic financial literacy course to improve the socioeconomic conditions of the Larbie community in Awutu, Ghana.  
**Best things about it:** we got to travel to Ghana for research and data collection, which was a fantastic experience. All the information we obtained was used to provide financial and organizational recommendations so that the institutions we were working with could achieve enough sustainability to become attractive to private investors.  
**Most challenging aspect:** knowing that all of our decisions were going to affect real people.

## D-Lab

This lab takes an integrated approach to the world of design and architecture, with projects in urban and rural architecture, city planning, and with local tourism authorities.

### Sample project:

#### FROM LIMIT TO LIVE IT

**Objective:** come up with a proposal for an international temporary art contest to decorate Segovia's city wall. Establish the rules and create the graphic material to send out to participants.

**Best things about it:** it was a very creative project where all ideas were welcome. The contest had specific objectives, but we were encouraged to think freely and come up with innovative proposals in order to meet those goals.

**Most challenging aspect:** coming up with the evaluation criteria was one of the most challenging hurdles. We needed to make sure that each aspect evaluated would give real value to the contestant's proposals and at the same time make sure it was viable, innovative, etc.

## Finance Lab

If you want to work in the world of finance, this is the perfect place to get your career started. This lab focuses on analyzing financial markets and consulting companies on a range of financial issues.

### Sample project:

#### ONE-TO-ONE CORPORATE FINANCE

**Objective:** analyze a company's high-performance benefits, real estate transactions, and investments in private equity funds.

**Best things about it:** the fact that we got to evaluate a company's real activity and value.

**Most challenging aspect:** being able to think long-term and come up with flexible solutions to problems which have yet to arise.

## Legal Clinic

Students offer legal advice for startups, NGOs, nonprofits and institutions in need of legal consulting services. Several law firms also collaborate with this lab for research and consultancy to help their clients and firms.

### Sample project:

#### PRODIS

**Objective:** conduct a study among medium-sized enterprises in Madrid to ensure compliance with laws regarding the rights of disabled people.

**Best things about it:** we raised awareness about a topic that could make a huge difference in our society, particularly to those in poor health.

**Most challenging aspect:** finding out that a big percentage of the companies we interviewed are not aware of the law and the alternative measures to be implemented in hiring disabled people. That was quite discouraging.

## Sports Lab

This lab monitors and reports on issues pertaining to sports players, teams, and coaches, and produces research and consultancy for Spanish and European soccer clubs, Formula 1, and others.

### Sample project:

#### ATLÉTICO DE MADRID

**Objective:** predict and evaluate players' behavior.

**Best things about it:** we got to develop activities aimed at improving the lives of athletes and also demonstrate the value of sports to society.

**Most challenging aspect:** in order to be heard and get our ideas implemented, we needed to make sure that absolutely everything in our proposal was well founded and based on empirical evidence.

## Communication Lab

The *Communication Lab* works with the widest range of companies, institutions, and startups with communication needs. You will be in charge of creating content such as blogs, videos, and other media content according to the clients' needs.

### Sample project:

#### VOICES OF THE ROYAL THEATER

**Objective:** execute a project to transform the opera into an accessible and trendy activity for young people.

**Best things about it:** we first had to immerse ourselves in the world of opera singers in order to understand their passion for the art!

**Most challenging aspect:** avoid making assumptions about why young people aren't interested in opera. We needed to come up with effective ways to learn their reasons and motivations in order to create a campaign that would impact the target audience.

"Joining a lab is a fantastic experience since you get to know more about a topic that you are not very familiar with; in my case, finance. I've always been interested in it and this was a first step that somehow connected me to the real world around it."

# INTERNSHIPS

In touch with the real world

We understand that real-world experience is fundamental within the field of law, and for that reason the Bachelor of Laws offers students the opportunity to complete internships with organizations worldwide.

You will have many opportunities to learn how to apply the knowledge you have acquired in the classroom to real legal matters, thanks to the IE Labs, Legal Clinic, Shadowing Program and practical courses available to all law students.

You will gain more than a year's worth of professional experience, which is sure to help you stand out as you enter the job market and begin to establish yourself as a valued lawyer.

Our students have completed internships at Allen & Overy, Baker McKenzie, Cleary Gottlieb, Clifford Chance, Cuatrecasas, Dentons, DLA Piper, Freshfields, Herbert Smith Freehills, Hogan Lovells, Latham & Watkins, Linklaters, Pérez-Llorca and Rodrigo Uría among other companies.

“Once you graduate and start working, you’ll know what to expect, and most importantly, what is expected from you”

**Raquel Rodríguez Lozano**  
*Bachelor of Laws*

**Tell us about your internship. How was the recruiting process—steps, tests, interviews?**

**Dawson Cornwell**

My internships took place at the end of my second year, and the recruiting processes were quite simple! Even though each firm has their own process, and sometimes these involve multiple phases, in my case it wasn't that long.

The first firm I got in touch with was Dawson Cornwell, a London-based firm specialized in family law, and they only asked me to send my CV. Thankfully, I had taken part in multiple activities at IE University, and I was very proactive as well, which made a good first impression. This made me realize the importance of getting involved in the extracurricular activities that are offered to you during your university years. The second selection process was in Gastão da Cunha Ferreira, an intellectual property law firm located in Lisbon. Here I had to send my CV as well, and write a cover letter explaining why I wanted the internship and what made me the most suitable candidate for the position.

**What types of projects did you work on?**  
I had the opportunity to be involved in several projects. Usually, the number of tasks you are assigned, and their relevance, is directly related to how

much they trust you. For that reason, it is quite important to demonstrate your capacities and reliability from day one. In London, I was attending daily hearings in the Family Division and in the High Court, where I had to take notes on everything going on inside and outside the courtroom, related to our clients. I also had to attend meetings with clients and barristers, and draft legal documents,

**“The great advantage internships present is mainly that you are involved in real working environments, so once you graduate and start working, you know what to expect and most importantly, you know what is expected from you”**

such as chronologies of cases, among other tasks. In Lisbon it was more of an office job, and I had to deal with trademarks, applications, and collecting evidence to support opposition proceedings, among other tasks.

**What was one of the highlights?**  
One of the projects I enjoyed most while working in Lisbon was preparing a presentation for app developers to inform them about IP rights and how they're an important intangible asset to protect their apps. This gave me a theoretical and practical knowledge of how to solve problems that knock on the door of IP law firms on a daily basis.

**How do you think you benefited from this experience?**

The experience was absolutely unique, as I learned what it's like working in a city such as London, where everything moves very fast and you need to learn how to be efficient and organized in order to keep track of everything.

**What are your future career aspirations?**

After I do my Master's Degree in 'Acceso a la Abogacía', I would like to work as a lawyer in a large firm. Although I'm still not completely sure which area I'd like to focus on, there are some specializations that appeal to me more than others, such as labor law, corporate law, and competition law. During my studies and internships, these areas were definitely some of my favorites!

**What tips or advice would you give to other students applying for an internship?**

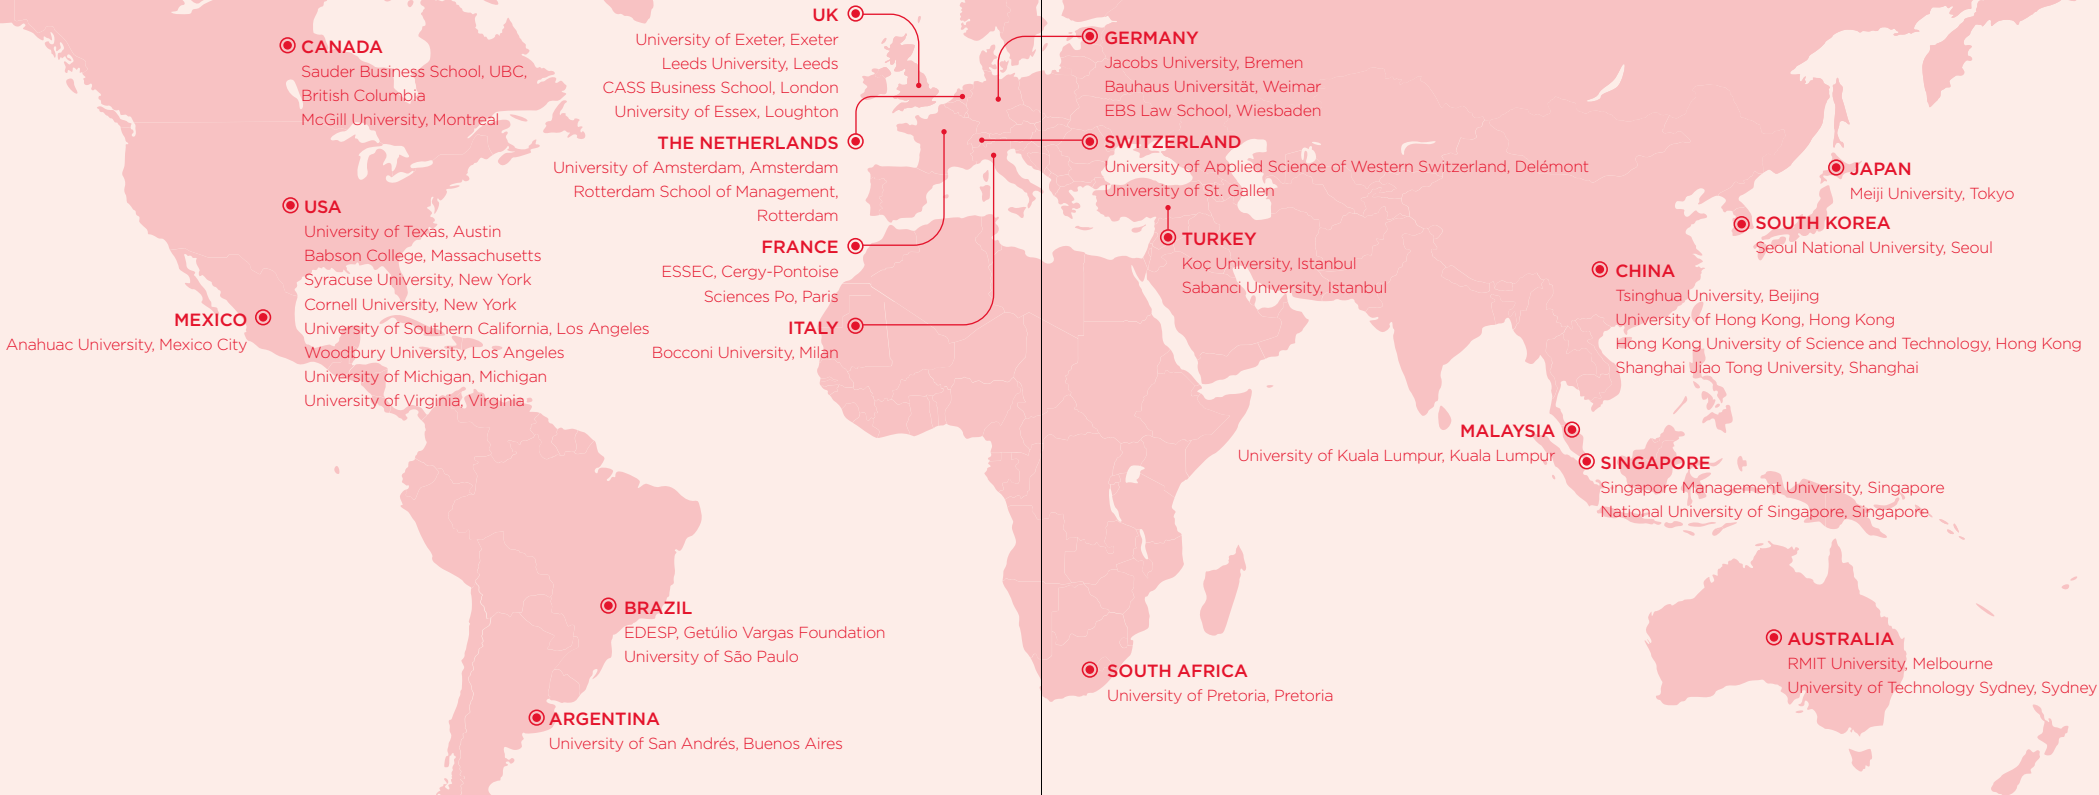

I would recommend looking for internships where they get to be involved in areas of law that truly interest them. If you get the chance to be involved in an area where you can see yourself working in the future, the motivation will be higher throughout the process and it'll show in your performance. I'd also recommend doing several internships. Working in different environments definitely develops your adaptation skills, and enhances your knowledge of different cultures and companies.

STUDY ABROAD

“An exchange was a perfect opportunity to go on an adventure to the other side of the globe”

**Emilija Berzanskaite**  
*Exchange Student at the University of Melbourne, Australia*

**Why did you take the initiative to go abroad?**

I have always love to travel and meet new people. For

me, an exchange was a perfect opportunity to go on an adventure to the other side of the globe, especially after graduation and landing a job, making the move to another country for pleasure can be quite hard to manage.

**What are the biggest advantages of living abroad?**

Besides getting to study at a foreign university that has a different educational approach and offers unique courses outside of your degree, you will also get to create your own experience from scratch. Going to a place without knowing anybody allows you to start fresh and look at every day as a challenge and an opportunity, especially since you are stepping out of your comfort zone. Personally while on exchange, I met some of the most wonderful, like-minded people from all over the world. It was amazing to create memories with them while partaking in adventurous activities, including road tripping and surfing.

**Why did you choose the University of Melbourne?**

The University of Melbourne is recognized worldwide for its high academic standards, especially in law. And coincidentally, this university happened to be in a city that for seven years in a row was rated the most liveable city in the world!

**What would you recommend to future exchange students?**

Be very open-minded when you choose where you want to go on exchange. Do not be afraid to face the unknown since it means living out the experiences that will enrich your life the most and make your time abroad unforgettable! And be proactive: every city and country has to offer a lot if you are willing to explore it all.

A DAY IN THE LIFE OF...

“When I think of IE University, I think of the diversity, the hands-on experience, the closeness with the professors, and the opportunities”

**Michelle Meier Mattern**  
*Bachelor of Laws*

**What do you like most about studying at IE University?**

I like that within my group of friends from the university, there is always a minimum of four different backgrounds and nationalities, which allows us to learn a great deal from one another, not only from what we've learned academically, but also by sharing our different cultures.

When it comes to classes, our professors always make sure to provide us

with real-life examples of how their subject is relevant to the everyday life of a lawyer, which makes it easier for us as students to understand what they're teaching. In addition, because the classes are relatively small compared to other universities, we all have the freedom to ask questions and engage in group discussions, which makes the subject sessions very dynamic.

Lastly, because IE University really encourages us to look beyond what goes on in the classroom, we gain an insight into the professional world through networking, talks, and internships. Over the summer, I spent a month doing an internship at one of Spain's largest law firms, which gave me a real idea of what it's like to be a lawyer.

**Are you involved in any extracurricular activities?**

I've been a member of the IEU Event Planning Committee, which enabled me to organize the annual IEU Spring Ball. I've also been a class representative for three years in a row, making me the bridge between my class and the administration, and allowing our voices to be heard. I've also been part of the IE Legal Clinic, which is a legal lab for students, led by professors and master's students, that provides pro bono aid for those in need. Overall, I was very happy with the opportunities

IE University offers us to be involved in everyday student life, so that we all feel like we're contributing something to the university.

“[...] because the classes are relatively small compared to other universities, we all have the freedom to ask questions and engage in group discussions”

**What are your favorite subjects and why?**

One of my favorite subjects of the past few years was *Conflicts and Business Law*, on the one hand because I am very interested in the combination of civil law and business, and on the other hand because the professor was great at explaining his field of expertise. Another real treasure I found in our curriculum was *Civil Law Property*, which discusses property and transaction rights. I liked it because it's a subject that you have to deal with whether you are a lawyer or not. Lastly, I really enjoyed *Legal Thought*—which is the equivalent to Legal Philosophy—because though it may not be as practical as the other subjects, I still think it's interesting and essential to learn about the roots of where today's laws come from, and to look at the great thinkers that helped shape our society's ideals.

# ADMISSION PROCESS

Become part of IE University

At IE University, there's no single deadline for applying to our undergraduate programs. The various stages of our admission process are aimed at identifying those areas of your academic and personal profile that make you unique, and to make sure that our educational model is a good fit for you.

As our programs usually fill up far in advance of the start of the academic year, we advise candidates to apply between twelve to nine months before the semester begins. This will also allow you time to obtain any necessary visas or other qualifications. Once you have received an acceptance letter, provisional or definitive, you must make a €2,000 non-refundable deposit to reserve your spot in the bachelor's program of your choice.

1

## ONLINE APPLICATION

The application form contains detailed step-by-step information on how to fill it in, guiding you through the process. Your application is subject to a non-refundable admission fee of €120. It will not be reviewed by the Admissions Committee until submitted and the admission fee has been paid. You can find information on how to pay this fee at the end of the application form. The application may be saved at any time during the process but it must be completed within one month.

## ADMISSION TEST

Take IE University's admission test or international admission tests: the SAT, ACT, CAS, or LNAT. IE University's admission test is conducted solely in English and assesses your verbal, logical and numerical skills. It centers on your ability to reason, rather than knowledge of actual information. This means you don't have to study for the test beforehand to pass it successfully. It also evaluates your English level. You can do the admission test either at the campus in Madrid or Segovia, or at any of the 29 offices IE has around the world. For other cases, please contact our Admissions Department at: [ieuadmissions@ie.edu](mailto:ieuadmissions@ie.edu)

## ONLINE ASSESSMENT

As a tech-forward institution, we use virtual assessment as part of our admissions process. This allows the admissions team to get a sense of your personality and potential before proceeding to a possible interview.

Completing the assessment is simple—you will be given 3 ques-

tions to answer in a set amount of time. One of your responses will be written, and two will be recorded via video. The whole process should only take 20 to 30 minutes to complete.

2

## PERSONAL INTERVIEW

(only after committee review)

Personal interviews are held either at the IE University campus in Segovia or Madrid, or at any of our 29 international offices. In extenuating circumstances we can arrange an online interview. The interview will allow us to get to know you better, and further assess certain qualities, such as your personality, capacity for critical thinking, method of self expression and other communication skills.

## FINAL COMMITTEE DECISION

You will be informed of the Admissions Committee's decision in writing. If accepted, you will receive one of two admission statuses:

Conditional Admission: in the event that you have failed to comply with all university access requirements in Spain.

Definitive admission: full admission, providing you have complied with all the points listed in the provisional letter of acceptance.
