IEUMUN Junior is an engaging Model United Nations conference designed for high school students at every stage of their MUN journey. Delegates are encouraged to participate actively and think critically about global issues. During the conference, delegates will experience both Madrid and Segovia, with sessions held at IE University facilities. In Madrid, sessions will take place at the contemporary IE Tower, while in Segovia, delegates will meet at the historic Convent of Santa Cruz la Real, combining modern academic spaces with rich cultural heritage.

IEUMUN Junior 2026 will feature six committees, offering a balanced academic experience across security, humanitarian, and social perspectives on global issues. Committees are structured to support both new and experienced delegates through strong chair leadership and engaging debate. Further details on committees and topics can be found on the next page. IEUMUN Junior is an opportunity for students to discover their voice and engage with the world around them.
